SPEED INDICATOR SIGNS

Councillors may be interested to know that 20 vehicle activated signs have been bought for Suffolk. Of these, 10 are temporary signs that are fixed to lamp posts, and 10 are mounted on tripods (these are called mobile triple mounted signs). The latter are suited for use by community speed-watch groups.

If parish councils are interested in more information or want these devices to be used for a month or so in their parishes, I suggest they contact:

ADIEU

Elections for Suffolk County Council will be held on 2 nd May. I hope that you found my reports over the last four years to have been useful.

Finally, I should like to express my admiration for the outstandingly creative and selfless work that has been put in by countless parish councillors during this time, which has made a huge contribution to improving the lives of those that live here.
