

MELTON PARISH COUNCIL

REC(19)58.01

To review proposals for MUGA development

It was agreed at the previous Recreation Meeting on the 25th September that the Assistant Clerk would contact the suppliers asking them to amend their quotes based on having no fencing and a pitch size that would suit 5 aside football, netball and basketball.

All suppliers were contacted, and all considered the lack of fencing to be an issue. In their experience where MUGAs had been installed without fencing initially, after some time fencing would be added retrospectively. The fencing helps keep the playing surface clean (stops the balls rolling out onto muddy ground), protects the surface edges more effectively and stops people randomly walking across the pitch during play. It also keeps the play contained, so not to impact on other users in the park (no random balls flying around).

Netball pitch dimensions: 30.5m long and 15.25m – plus run off of 2m each end and 1.5m each side

Football pitch (5 aside) dimensions: 25m x 16.5m – plus run off of 2-3m at ends and sides

Football pitch (7 aside) dimensions: 50m x 30m – plus run off of 2-3m at ends and sides

Basketball pitch dimensions: 28m x 15m

There is no budgetary provision for this option. Full Council has so far only approved expenditure of £5k for improved lighting, so any of these proposals will have to go back to Full Council.

Recommendations:

The Recreation Committee Members are asked to consider whether they wish to refer this to Full Council for consideration as part of the options for use of CIL monies.
