

MELTON PARISH COUNCIL

REC(19)58.03

To receive an update on the Security Barrier and Electricity Supply

Security Barrier

Suppliers have been approached to supply indicative quotes for installing a sliding gate at the car park entrance to the Playing Fields.

Quote 1		Quote 2	
Timber Rye sliding gate 4m x 2m Open/closing during set times via a timelock with a keypad	£13,138.42 + VAT 25 month warranty subject to a service contract taken out in the 2 nd year. 1 st year service included free.	Newgate electric sliding gate – painted metal 3.5m x 1.5m 24 hour/7 day timer	11,810 + VAT Does not include civil works Annual maintenance contract is £565 Annual force test £300

Electricity Supply

The village handyperson is liaising with the electricians regarding the laying of the electricity cable (cost £1,431). He hopes to carry this out in the next few weeks, depending on the timings of the digger loan and the weather. The cable will be laid along the hedge by the tennis courts to the entrance of the playing fields. The outdoor socket will be located by the hedge/bench closest to the Pavilion.

Recommendation:

The budget allocated for both the power supply installation and the supply and installation of the barrier is only £10k. As this security measure is an agreed Council priority, Recreation Committee is asked to refer to full Council with a request to review the budget in the light of quotations received.

Pip Alder
