

# MELTON PARISH COUNCIL

---

**REC(20)10**

## **Donation of AED from Bloor Homes**

Bloor Homes have offered us an AED once they finish construction. This is likely to be the end of 2020. The AED is a Heart Sine Samaritan Pad defibrillator Sam 500P.

Location – advice from the Ambulance service is for the location to have easy access, be well illuminated and where there is easy parking. Suggested locations include:

- Coach and Horses – would have to gain permission from them and their agreement to fund the electricity costs
- Playing Field – would have to go outside the gate so there is 24/7 access if security barrier is put in place
- Bloor Homes estate – would need a power supply

### **Maintenance/Servicing/Costs**

The unit will need weekly and monthly visual checks.

The pads/battery packs need replacing every 4 years. Adult packs currently cost £95 and children packs are £110.

### **Recommendation:**

Councillors are asked to agree if they wish to accept this AED and the ongoing associated costs and agree the location of it.

Pip Alder

Asst Clerk and Management Officer
