CCTV provision at Melton Playing Fields

Quotes for providing a CCTV system at the Melton Playing Fields are currently being sought. The system would consist of two cameras – one covering the car park and the other covering the front of the Pavilion. A recorder would be located in the Pavilion.

In order to facilitate this an internet connection would need to be installed. This could be provided as a mobile connection (paying a monthly charge like a mobile SIM card) or a fixed line utilising the ducting that has already been installed. I am currently getting the Pavilion registered with Royal Mail as Openreach/BT are unable to provide a broadband service without a recognised postal address.

Full quotes and options will be made available to Members as soon as they are all available.

Councillors are asked to note the strategy adopted to take this forward and make any comments and suggestions to assist with the process.

A handwritten signature in black ink, appearing to be 'Pip Alder', written over a light blue rectangular background.
