

MELTON PARISH COUNCIL

Guide to Local Public Transport

Temporary 'Coronavirus' Edition: version 4

Details of temporarily reduced bus and train services in Melton and Woodbridge area.

Valid from 29th June 2020 until further revisions to Covid19 Regulations come into force.

BUSES: Ipswich Reds (First Norfolk & Suffolk) have been slowly but steadily increasing the frequency of their temporarily reduced bus services, in response to the government's series of minor relaxations to the COVID19 pandemic regulations. The latest start on 29th June.

TRAINS: Following government advice, Greater Anglia train services were initially reduced to a minimal level, but are now being slowly increased, with temporary timetables being issued on a weekly basis at www.greateranglia.co.uk. A major improvement is due with effect from 8th July, but details are not currently available.

COMMUNITY MINIBUSES: The *Connecting Communities* demand-responsive service remains available for essential shopping and health appointments. Operating and booking hours remain unchanged, but online booking requests are suspended. No community cars or door-to-door services are available.

PARK-&-RIDE AND COACH SERVICE: Ipswich Park-&-Ride and all National Express coach services remain suspended for the duration.

NB From 15th June onwards, wearing a face covering has been a legal requirement whilst travelling on any form of public transport. This will protect both yourself and other passengers.

Coronavirus information from First Eastern Counties

This page was last updated: 24/06/2020

Since Sunday 28th June, we're putting on far more buses for essential journeys to help manage reduced capacity due to the social distancing measures we have in place following Government guidance. Please check the relevant timetable section for the new frequencies and bus times. Thank you for your ongoing support, which is essential, as we work together to maintain safe travel across our networks.

Following the UK Government announcement that face coverings will be compulsory for customers travelling in England from June 15, we're seeking clarity on these new guidelines. We'll post further instructions on this as soon as we can. Thank you.

From 15th June you must wear a face covering or mask on our buses

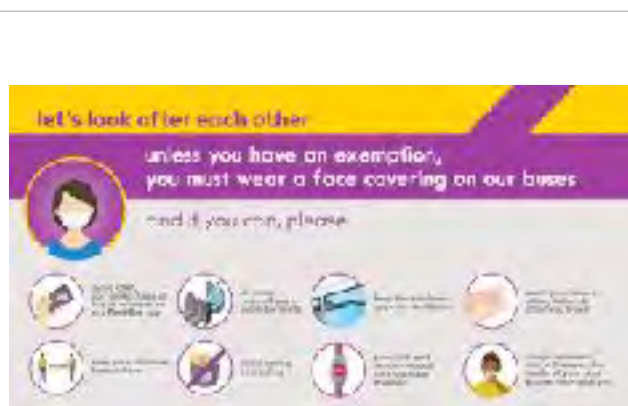

From 15th June, anyone wishing to travel by public transport must follow new government rules and wear a face covering or mask on board at all times, unless you have an exemption set out by the government. Please help our drivers and your fellow passengers by complying with this practical safety measure. A guide on how you can make a mask, can be found on our website <https://www.firstgroup.com/norfolk-suffolk/news-and-service-updates/coronavirus-covid19-service-information>.

Keeping you safe on board

From 10th June we're also rolling out a new, long-lasting sanitising treatment across our entire fleet, which kills Coronavirus on surfaces. The treatment is effective for 28 days, is environmentally-friendly, and is scientifically proven to be highly effective against Covid-19. It is the latest addition to our already enhanced cleaning regime. Our buses will be treated every 28 days with this "invisible shield", which attracts and kills organisms and is the latest cleaning enhancement in addition to the daily disinfection of all customer touchpoints onboard.

Helping you travel with confidence

With social distancing measures in place on our buses there are fewer seats than normal available on each bus. To help you travel with confidence we have developed some new functionality in our Mobile App. You can now track your bus live on a map so you know exactly where it is and when it will get to your stop. What's more, each bus now displays in real time how many empty seats there are to help you plan your journey. If you can buy tickets in advance on our app and avoid using cash it would be appreciated.

Thank you for your ongoing support.
Regards, Giles Fearnley,
Managing Director,
First Bus UK
