Tree Warden's Report

The failed trees in Orchard View were replaced a few days ago at the margins of the green areas. I was cautious about planting in the middle of those areas because, particularly at the far end, cars get parked on the green occasionally. Also, children might enjoy playing there, although I've never witnessed this.

I have a candidate to take over from me as Tree Warden - younger, fitter and probably more committed than me (although I would be willing to assist him when available). He is a member of my working group and remains keen to take over and would like to know what the next step is.

Councillors are asked to:

Agree that the Assistant Clerk should contact the individual willing to take on the role of Tree Warden and invite them to the next Recreation Committee Meeting in January 2021.
