

MELTON PARISH COUNCIL

FRM(21)18

PROPOSED NEW MENU STRUCTURE FOR THE WEBSITE UPGRADE

As part of the website upgrade, which is due to take place on Monday 10th May 2021, the website menu will be modified in terms of content and style. The menu will no longer run vertically on the left hand side (as shown in figure 1) but will run horizontally across the page (example shown in figure 2). The accessibility and privacy statement links will be included in the header underneath the search box.

The content displayed on the homepage is flexible and can be easily updated and modified. On launch the new website will contain the same information as the current website, just in a different layout. This can be changed post launch as required.

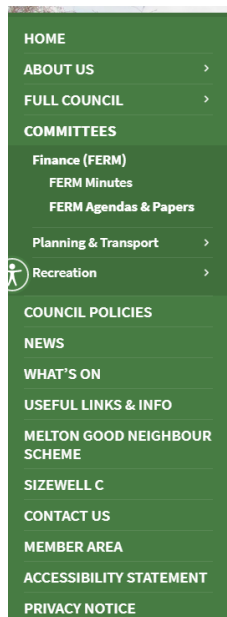

Figure 1

Figure 2

The recommendation is to have up to seven menu items. The proposed structure is shown in the table below with a fully expanded structure beneath that.
