Dear Julia Pyke,

Re: Sizewell C's potable water consultation

The 32 towns and parishes below are writing to express our deep concern that, more than halfway through the Sizewell C DCO process, such a major and fundamental issue as potable water supply is in doubt and that we are being subjected to yet more consultations and potential changes to your proposals.

The availability of potable water is a matter that many of us have raised since Stage 1 consultations over eight years ago, and it is extraordinary that it is unresolved at this late stage. Moreover we are in the midst of the holiday season, with many Town and Parish Councillors and clerks taking leave, yet you are limiting your consultations to just three weeks. We must assert that our ability to engage with the DCO process is being stretched beyond the limit of what is reasonable. Our concerns that this process strongly disadvantages local communities are being exacerbated by these events.

You will appreciate that these latest circumstances further undermine our faith in your ability to effectively plan this project.

Yours sincerely,

Cllr Edwina Galloway
Vice-Chair, Kelsale cum Carlton PC

Cllr Josie Bassinette
Vice-Chair, Walberswick PC
