9	Norway maple (Acer platanoides)	10.0m	13.0m	40 + years	Maturing	OVERALL CONDITION - Fair No change in condition since last inspection. MPC had recent enquiry re size of tree. Minor deadwood in crown & some on ground but only one piece around 3cm diameter. Tree vitality slightly reduced with no additional height growth in centre, so tree is not likely to get any bigger. No safety issue identified but consider planting a couple of trees as future replacements as only tree on grass area.	No significant safety issues	No action required	–
