

Project:	Tree safety assessment <b>Leeks &amp; Bury Hill wood</b>					Surveyed by: Mrs Alice Martin-Butler		<h1 style="text-align: center;">AlisonK - Arboriculture</h1> <p style="text-align: center;">6 Pond Piece, Brandeston, Woodbridge, IP13 7AW  T: 01728 685898  M: 07425389786  E: ali@alisonK.co.uk</p>		
Ref:	Appendix B8. REVIEW2: Schedule of trees, work recommendations & priority timescales.					Weather: Fine and dry.				
Survey Date:	16th February 2024					Notes:				
Client:	Melton Parish Council					1: Comments and updates from latest survey are shown in blue. 2: Identifying trees for work on site: Trees have been marked with an orange spray mark discreetly at base of tree or on ivy stem. 3: Some trees contained in this schedule are covered by TPO 25.				
		Estimated (metres)								
Tree/Gp Number	Species	Height	Crown Spread	Life Expectancy (years)	Age Class.	Tree Problems/Comments.	Safety significance and recommendations	Work required on safety grounds	Work Priority	
1	Aesculus hippocastanum (Horse Chestnut)	8.0m	10.0m	10+ years	Mature	OVERALL CONDITION - poor. Tree reduced to about 8m and potential weakest point at 6m. Since last inspection, informal footpath under tree has been blocked reducing target on one side. No change in condition since last inspection no further work needed at present.	No significant safety issues	No action required	-	
2	Acer pseudoplatanus (Sycamore)	20.0m	12.0m	40 + years	Mature	OVERALL CONDITION Fair - No change in condition since last inspection. But dead branch in tree at 5m now has play rope attached.	Rope very high and looks usable but Branch needs removing. No other significant safety issues.	Remove dead branch at around 5ms back to main stem.	Within 6 months	
3	Cedrus atlantica (Atlas Cedar)	23.0m	16.0m	20+ years	Mature	OVERALL CONDITION - Fair No change in condition since last inspection. Five of the six lowest branches are now dead however not safety issue and may act as cushion in the unlikely event should other higher up branches fail.	No significant safety issues for tree but would be prudent to re route footpath if possible out from under crown.	No action required	-	
4	Quercus robur (English Oak)	15.0m	14.0m	40 + years	Mature	CONDITION - Overall Condition. Fair. No change in condition since last inspection. Low branch reduced following 2022 inspection.	No significant safety issues	No action required	-	
5	Acer pseudoplatanus (Sycamore)	-	-	-	-	Tree felled as part of past inspection recommendations	-	No action required	-	
6	Quercus robur (English Oak)	16.0m	12.0m	40 + years	Mature	OVERALL CONDITION - Good No change in condition since last inspection.	No significant safety issues	No action required	-	
7	Quercus robur (English Oak)	12.0m	7.0m	20+ years	Fully Mature	OVERALL CONDITION - Fair No change in condition since last inspection.	No significant safety issues	No action required	-	
8	Quercus robur (English Oak)	14.0m	12.0m	40 + years	Mature	OVERALL CONDITION - Good No change in condition since last inspection.	No significant safety issues	No action required	-	
9	Salix spp. (Willow species)	-	-	-	-	Felled as part of past safety works but still no access close to check.	-	No action required	-	
10	Salix spp. (Willow species)	18.0m	16.0m	20 + years	Fully - Mature	OVERALL CONDITION - Fair No change in condition since last inspection.	No significant safety issues	No action required	-

Ref:	Appendix B8. REVIEW2: Schedule of trees, work recommendations & priority timescales.					Weather: Fine and dry.				
Survey Date:	16th February 2024					Notes:				
Client:	Melton Parish Council					<b>1:</b> Comments and updates from latest survey are shown in blue. <b>2:</b> Identifying trees for work on site: Trees have been marked with an orange spray mark discreetly at base of tree or on ivy stem. <b>3:</b> Some trees contained in this schedule are covered by TPO 25.				
		Estimated (metres)								
Tree/Gp Number	Species	Height	Crown Spread	Life Expectancy (years)	Age Class.	Tree Problems/Comments.	Safety significance and recommendations	Work required on safety grounds	Work Priority	
11	Salix spp. (Willow species)	21.0m	16.0m	5 + years	Fully-Mature	OVERALL CONDITION - Poor Tree has put on regrowth (2 to 3 m). Also evident is tree responding with supportive wood growth but not sure how strong this will be while tree remains at 20 to 21 metres high.	Needs further reduction as evidence of partial failure of buttress root on top side of stem lean.	Reduce crown to - 8 metre pollard pole. Stack arisings on site	Within 6 months	
12	Salix caprea (Goat Willow)	-	-	-	-	Felled as part of 2022 safety work.	-	No action required	-	
13	Quercus robur (English Oak)	17.0m	15.0m	Fully Mature	20+ years	OVERALL CONDITION - Indifferent No change in condition since last inspection.	No significant safety issues	No action required	-	
14	Salix spp. (Willow species)	17.0m	10.0m	Fully Mature	10 + years	First inspection 24. OVERALL CONDITION - Fair Tree has stem lean over the footpath with no obvious defects however clear brambles and manage ivy on stem to allow for full inspection at next inspection.	Safety issues unlikely however undergrowth prevent full inspection of base.	Clear bramble undergrowth around base and manage ivy on stem.	Within 12 months	
15	Alnus glutinosa (Common Alder)	18.0m	6.0m	Fully Mature	<5 Years	First inspection 24. OVERALL CONDITION - Partial root plate failure of tree. Well hung up but potentially hazard, with action needed to bring down to ground.	Well hung up and unlikely to fall but needs to be felled.	Fell hung up tree with partial root plate failure to ground level. cut into long lengths and stack neatly habitat pile on site.	Within 6 months	
16	Fagus sylvatica (Common Beech)	16.0m	10.0m	Maturing	20+ years	First inspection 24. OVERALL CONDITION - Fair - Tree growing within a metre of old sweet chestnut. A couple of broken branches in crown.	Hung up branches unlikely to fall but Well hung up but remove as over footpath.	A couple of broken branches in crown at around 12 metres up. Well hung up but remove as over footpath	Within 6 months	
17	Pinus sylvestris (Scots Pine)	15.0m	8.0m	Fully Mature	5+ Years	First inspection 24. OVERALL CONDITION - Indifferent Tree with dense ivy coverage prevents full inspection. Visible foliage looks a bit thin but no significant safety issues visible.	Dense ivy prevents full inspection.	Carry out ivy management to allow for full inspection at next inspection date	Within 12 months	
18	Salix fragilis (Crack Willow)	25.0m	18.0m	Fully Mature	10 + years	First inspection 24. OVERALL CONDITION Fair - Low branch partially failed at about 3.5m up. long limb resting on ground.	Broken branch well attached and limited access as area so wet. During summer this area remains fairly inaccessible so not considered a safety risk as very low target.	No action required	-	
Gp1	3 x Acer pseudoplatanus (sycamore)	20m	-	40 + years	Mature	CONDITION -Good No change in condition since last inspection	No significant safety issues	No action required	-
